

# ***Single Stock Fund VIOC Readiness Review (VRR)***

## **Director's Update**

**Ms. Sue L. Baker  
Director, Single Stock  
Fund 10 May 02**

# First of All.....

- **Congratulations!**

- ✓ **Lots of hard work has preceded today**
- ✓ **The Logistics Community is stronger because of what you have done**
- ✓ **You've uncovered problems; synchronized processes; revised perspectives; questioned assumptions; scrubbed data records; allowed us to better understand the entire process & our linkages**

- **You have set the model for Army Change Management**

- **This is one example of the Teamwork which led to SSF being the DoD Winner of the 2002 Global Supply Chain Award!**

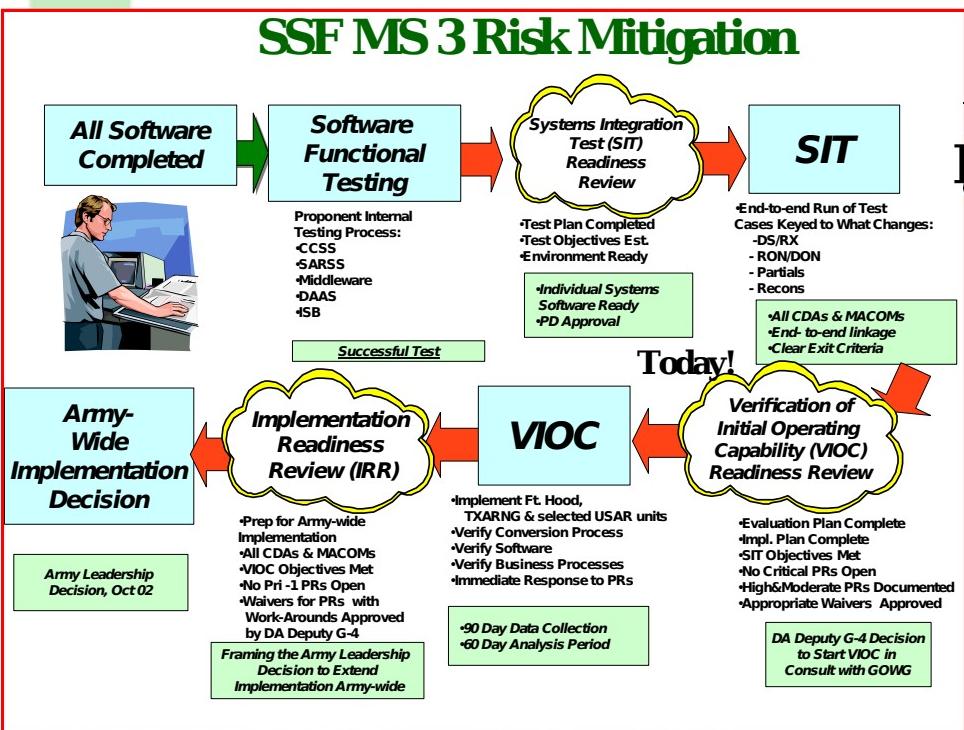

# Key Points

## So - Why Are We Here?

Frame the issues & make a solid recommendation to the General Officer Work Group about our readiness to “go live” with SSF MS 3

## SSF MS 3 Risk Mitigation

## What Are The Issues?

- Software - Are We Ready to go to VIOC?
- Are the Other Enablers in Place?  
Plans & Procedures

Training

Implementation Teams

Evaluation Tools

National Management

MACOM Partners

# The Primary Issue

Plan 1

- Do we go to VIOC with the current plan - 7 more days of testing to mitigate existing SIT PRs?

Plan 2

- Do we extend the testing period and push the VIOC start date to July?
  - We'll review an Alternate Plan that would add several days to help mitigate
    - Quality
    - Confidence
    - Live Experience
    - Resource Expenditures - time, money, people

# The Challenge

---

- Listen to all discussions
  - Identify key SSF GOWG issues
  - Come up with a Consensus Recommendation
